RIO DE JANEIRO, AUGUST 13th, 1901.

We call the attention of our readers to the following figures which show in completely the decrease in customs receipts for last month in comparison with those for July, 1900:

	1901.	1900.
Rio de Janeiro.	6,010,945\$717	4,970,414\$215

Macahé.	3,195\$618	not stated.

We are, of course, not unaware that this year a larger proportion of the receipts are collected in gold; but this does not invalidate the significance of the foregoing figures, which show that burdensome taxation is contributing powerfully to deplete the sources of public revenue. It may be true that by increasing the burdens of the people the government has succeeded in increasing temporarily the gold value of the receipts of the national treasury; but it is also true that the increase in revenue is not in proportion to the increase in the weight of the burdens imposed.

It has been said that at the present time Brazil offers the curious spectacle of country whose public revenue shows a very considerable surplus and enables the government to resume payment of the full interest on its debt, while at the same time the economic condition is very unsatisfactory. In our opinion, however, the seeming discrepancy between the financial condition of the government and the economic condition of the country is purely imaginary, resulting from the superficial examination of incomplete and misleading data. The government is resuming the payment of interest not with the revenue of the present year, but with the unexpended balance of the funding loan, and we believe that, unless there shall be a large reduction in public expenditure and in taxation, the financial difficulties of the country will in a few years be much greater than they were in 1898, when the government was forced to accept the moratorium offered to it by means of the funding scheme. The correctness of our view of the situation will, we think, be evident when we publish the result of an interview that we have solicited from an eminent Brazilian financier.

## NEWS AND NOTES

—It is stated that the federalists of Rio Grande do Sul intend establishing a journal at Montevideo.

—The present coffee crop of the municipal district of Campinas is estimated at 1,398,995 arrobas (349,748½ bags).

—The receipts of the Rio de Janeiro general revenue office amounted last month to 2,325,704\$961 against 1,919,665\$859 in July, 1900.

—Serzedello, Doubtless, says Smith, Serzedello's tears have washed the stains from the president's character.

—The *Correio da Manhã* calls attention to the arbitrary conduct of consumption tax agents and advises business men to resist the encroachments of these agents on their rights.

—The sales of coffee on the New York Coffee Exchange for the year ended on June 30, aggregated 7,850,000 bags against 5,875,500 bags in 1900. The sales for 1899 were 4,060,500 bags.

—The *Correio da Manhã*, in its issue of last Wednesday, says that it is informed that in the state of Rio de Janeiro local authorities are releasing prisoners from the jails because they are no longer able to feed them.

—The federalists in Rio Grande do Sul deny that they intend making a revolution. They are preparing, they say, to commence a peaceful agitation in favor of the revision of the constitution.

—From the United Kingdom there were exported to Brazil 416,350 tons of coal, officially valued at £279,891, in the first half of the present year against 428,940 tons, valued at £304,702, in the first half of last year.

—It is only now, in the middle of the last month of the period fixed by the constitution for the legislative session, that the government has sent to congress the estimates of public revenue and expenditure for next year.

—A writer in the *Correio da Manhã* says that President Campos Salles not only withdraws merchandise from the custom-house without paying duty, but also ships it on the Central Railway without paying freight.

—"I hereby give notice," says Smith, that, wishing to be considered immaculate by Serzedello, I shall hereafter scrupulously refrain from committing the crime of paying duty on merchandise that I withdraw from the custom-house."

—Dr. Sahian Barrow, who represented the state of Minas Geraes in the chamber of deputies, has been appointed minister of justice and interior, and Judge Edmundo Barreto has been appointed chief of police of the Federal District.

—The *Daily Mail* in its issue of the 8th ult., claims to be informed on good authority that in a few months the Anglo-Brazilian Guiana frontier question will probably be settled in a manner considered satisfactory from a British point of view.

—In the first half of the present year there were exported from the United Kingdom to Brazil 33,212,400 yards of cotton piece goods, officially valued at £380,001, against 40,807,400 yards valued at £451,945 in the corresponding period of the year 1900.

—The resolution for suspending the execution of the contract with the Western of Brazil Railway Co. passed in the senate without a division in 1st discussion on Friday. It was sent to a committee and will enter the 2nd discussion when the committee reports.

—According to the *Gazeta da Tarde* Campos Salles, when he was himself, suddenly discovered what the rest of us have known for a long time, that is that the police of Rio de Janeiro is wretchedly inefficient. Hence the dismissal of the minister of justice and chief of police.

—The resignation of Minister Epitacio Pessoa has caused general rejoicing among students throughout the country. In São Paulo the demonstrations with which the students gave expression to their gratification resulted in disturbances in which several persons were wounded.

—One of the effects of the contract with the Great Western of Brazil Railway Co. has been to stimulate and intensify characteristic feeling in Brazil. So strong has this feeling become that a prominent writer does not hesitate to recommend Prince Tuan of China as worthy of praise and imitation.

—In all our visits to various countries we have been handsomely treated, but King Edward was just a little kinder, a little more courteous and thoughtful than all the others, for whom we have had the honor of being received. This is what Capt. Huet de Bacellar is reported to have said to a representative of the *Daily Mail*.

—The chief of police of the state of Rio de Janeiro denies that prisoners have been released from jails in that state on account of the inability of the local authorities to feed them. He admits, however, that in some instances, accounts not having been paid, contractors have refused to continue to credit the local authorities, so that he has been forced to remove the prisoners from those jails to Xithery.

—The Boer prisoners on the island of St. Helena have organized a Christian Endeavor Society.

—The tallest smoke-stack in the United States is at Constable Hook, N. J. It is 365 feet high.

—The cost of the electric plant for lighting the cathedral of Notre-Dame de Paris is estimated at 450,000 francs.

—It is officially stated that the total production of coal in the United States last year amounted to 238,877,200 tons, valued at £59,578,400, the aggregate exceeding that of Great Britain by no less than 13,707,000 tons.

—Last month there was a reduction of 88 in the amount of currency in circulation. If that doesn't improve the exchange market, says our well-informed friend Smith, there is no use in attempting to theorize on Brazilian exchange.

—It is stated that in the cities of Rio de Janeiro, São Paulo, Bahia and Pernambuco, there are about 2,000 physicians, or more than half of the whole number in Brazil, which is estimated at less than 4,000. In Rio de Janeiro alone there are said to be 900.

—On Wednesday Deputy Julio de Mello, who opposes the contract with the Western of Brazil Railway Co., denied it his duty to resign the office of 2nd vice-president of the chamber. The election for filling the vacancy was held on Friday, when the government candidate Deputy Siqueira Dias was elected, obtaining 98 votes. There was no opposition, but there were 11 scattering and 27 blank votes.

—Foreign merchants have not yet been able to overcome the difficulty of classifying merchandise in consular invoices in a manner considered acceptable at Brazilian custom-houses. A recent issue of the *Diário de Santos* contains a letter on this subject from Messrs Fry, Myers & Co., of London, who says that they cannot obtain from the Brazilian government the information required for their guidance and that the *Official Nomenclature* is of no practical use.

—In the chamber of deputies there has been introduced a bill making an appropriation of 300,000 to defray the cost of organizing definite balance sheets of the national treasury up to date. If those balance-sheets can be obtained in this way and if there is no other way of obtaining them, the appropriation should be voted. The last balance sheet showing to be definite is that for 1891, which was issued by the treasury only a week or two ago. Whether it is really definite or not remains to be seen.

—A political meeting, attended by 22 senators and deputies, was held on Sunday night at the senate building. It was decided that on the 20th prox. a convention shall meet in the city of Rio de Janeiro for the purpose of uniting candidates for the presidency and vice-presidency of the republic. Senator Pinheiro Machado spoke in favor of the government and what he said seems to have been received with acquiescence by the other senators and deputies present.

—If the Brazilians, says the *Statist*, would awaken to their own true interest and seriously set to work, few countries in the world possess greater resources or would be likely to have a more brilliant future. Even if the Brazilians could attract the right kind of settlers in sufficient numbers, there would be a future before them. Exactly. And it is, consequently, absolutely necessary that Brazilians who seriously set to work and settlers of the right kind shall not continue to be robbed by misgovernment of the greater part of the fruits of their labor.

## CRICKET AT S. PAULO.

SANTOS A. C. v. S. PAULO A. C.

This match was played in the Club ground at Consolação on 28th July, and resulted in a draw, stamps being drawn at 4 p.m., when the game was abandoned on account of the rain.

Miller (Capt. S. Paulo) winning the toss, put the visitors in to bat first, and a start was made at 11 a.m. Lloyd and Burgess facing the bowling of Miller and Rule; the first

three wickets fell for the small total of 21 runs. Burgess the last to go, being caught at the wicket off Rule, but when Tracey joined Tomlinson, a most sensational stand was made, and runs came very freely, both players hitting hard and clean, and not a chance being given until Tracey was missed in the Long Field when the score stood at 103; this let off was most unfortunate for the home team, as in spite of several changes in the bowling, the partnership could not be broken, and although Tomlinson, with the score at 131, gave a chance at mid-off, and Tracey shortly after was missed from a hard catch at the wicket, these were the only chances given, and both men were still batting freely when with the score at 173 the players adjourned for lunch.

After the interval, things began to look less black for the Paulistas, as with the score unchanged, Tomlinson was clean bowled by Miller, after having played an almost fruitless innings of 103 runs, which included seventeen 4's and one 6.

Tomlinson being disposed of, after a partnership which resulted in 180 runs, the rest of the visitors, with the exception of Elworthy, gave little trouble, and the last wicket fell with the score at 225, Tracey being out for a well played 77, which included ten 4's and one 6.

To start the São Paulo innings, Miller sent in Boyes and R. Gray to face the bowling of Tracey and Tomlinson, and runs were coming freely when with the score at 26, Boyes unfortunately played on to a fast ball from Tracey, having contributed a useful 16.

Snake joining Gray, who was plying a steady game, the score rapidly mounted to 66, when the former, after having made a hard hit 30, strolled outside his crease and was inconspicuously stumped by Burgess.

With 3 wickets down for 67 Miller joined Gray, and scoring steadily put on another 21 runs, when Gray was bowled by a fast Yorker from Tracey after a well played 23.

Robinson then joined Miller, and both players forcing the game carried the score to 113, when with 4 wickets down, play was abandoned on account of the rain, the match resulting in a draw, Miller being not out for 23, and Robinson not out for 14.

The weather was most disagreeable during the game, a thin drizzle falling all day, which made it very hard for the bowlers to get any work on the ball, and which was responsible for a certain amount of looseness noticeable in the fielding.

The Paulistas were pleased to see Paddy Elworthy, the old Santos captain, once more filling his old position after an absence of 5 years.

Tea was kindly provided by Mrs. Walker, and was greatly appreciated by those present.

## THE GREAT WESTERN OF BRAZIL RAILWAY.

The circular issued by the Great Western of Brazil Railway Company foretold a far-reaching change of railway policy on the part of the Brazilian government. It has always seemed strange to us why the Brazilian government, which is far from being in a strong financial position, and which was recently
